

HOUSING FIRST

For women and children - the leading cause of homelessness is domestic violence.

It exists in every community.

Fear prevents many from seeking help.

Interim CDA has a holistic approach to prevent homelessness

- We support people by providing safe, affordable housing in ways that are culturally-relevant and understanding
- Staff members speak 10 different Asian and Pacific Island languages and are trained to assist women facing the challenges created by domestic violence

This work is supported by:

The Bill & Melinda Gates Foundation, King County, the Washington State Coalition Against Domestic Violence, our nonprofit partner organizations and individuals like you who care
